General Schoneld, published this morning, as being either doubtful, obscure or defective. The commanding General comes directly to the point. He does not leave the shadow of a hook to hang doubt upon. He speaks in language so plain that he who runs may read. No Delphic utterances are his; for, with one bold streke of his pen—an instrument at present mightier than the sword—he plainly tells us that every man who voluntarily added the rebellion is distranchied. This, of course, inclindes nine-tenths of the white population of Virginia, by the most favorable calculation that we can make; and really we do not believe that there are five thousand legal white voters in the State who can conscientiously take an oath that they never voluntarily added the South in her colosal struggle.

The vision of liberty, which for the past few months has inspired our hopes, is about to fade like the "baseless tabric" of a dream, and leave "not a rack behind." The military boldy, and even the wisest Congressmen had declared that it did not disfranchise the rank and file of the con ederate army who had accorted the Denetal of the content of the conten

declared that it did not disfranchise the rank and file of the contederate army who had accepted the President's amnesty, and would take the oath to support the Constitution on the comment of the stranger o their strength, and in their ability to carry elections.

In a word, we are all disfranchised; for the meanest coward that ever hid from the conscription officer, will scarcely swear that he never gave voluntary aid to the Southern cause, and if this order is to be regarded as the ultimatum, we have but one alternative, to resort to wholesale perjury, or leave the field entirely to the negroes and the lew so-called "loyal" whites. Of course the idea is considered for a moment, and to the last we

Recommendations HON. JAMES THOMPSON, PHILADELPHIA, April 28, 1866.

I consider "Hoofand's German Bitters" a val-uable medicine in case of attacks of indigestion or Dyspepsia. I can certify this from my expe-rience in it. Yours with respect, JAMES THOMPSON. From A. McMakin, Esq., New York, No. 663 Broadway, March 39, 1866. Dear Str.—I take gress pleasure in testifying to the extraordinary remedial qualities of the Hoof-and's German Bittern, procured at your estab-

lishment.

A member of the family has been for many years a perfect martyr to Dyspepsia, Palpitation of the Heart, and other distressing offsprings of a torpid liver, until persuaded to try the above celebrated remedy, which in a few weeks resulted in making her (to use her own words) "a new woman."
You are at liberty to make any use of this you see fit, or refer similar sufferers to.
Yours, truly,
A. McMARIN.

From the Rev. LEVI G. BECE, Pastor of the Bap tist Church, Pemberton, N. J., formerly of th North Baptist Church Philadelphia, as presen Pastor of the Baptist, Church, Chester, Pa. I have known Hoofand's German Bitters favorably for a number of years. I have used them in my own family, and have been so pleased with their effects, that I was induced to recommend them to many others, and know that they have operated in a strikingly beneficial manner. I take great pleasure in thus publicly proclaiming this fact, and calling the attention of those afflicted with the diseases for which they are recommended to these Bitters, knowing from experience that my recommendation will be sustained. I do this more cheerfully as Hoofand's Bitters is intended to benefit the afflicted, and is "not a rum drink." Yours, truly G. BECK.

The evidence is multiplying on every hand that the object of the radicals in enacting the military bills was not to preserve order, but to use the machinery to organize a radical party. General Ord is bitterly denounced because he assures the freedmen that it is of more consequence that the soil should be tilled and crops raised than that they should waste time on politics. Even General Should waste time on politics. Even General Strain, is strenuously denounced by the New Orleans ultras because he will not do more. General Pope has played into the hands of the Mobile radicals, to which he was advised by General Swayne, in removing Mayor Withers, and in working out a state of things there usterly disgraceful to the American name. In Virginia, General Brown, of the freedmen's bureau, is reported as having issued an order to the agents of the bureau wit osee that the freedman is instructed in his right, (to vote) and that he is registered and votes." It becomes, therefore, a duty imposed by General Brown upon his subordinates, not only to instruct the negro, but to exercise an absolute supervision over him, and see that he votes. If the statement is correct, General loward should remove General Brown at once. But he will not do it, for that would be to impair the machinery by which it is hoped the radicals may carry the State of Virginia. We have before said, and we repeat it, that the President is remiss in his duty in not keeping the military representatives of their other propersion, the Emperor of France, has been

The fourth horse is a gray in color, and nearly as finely brea as any of the others.

The Sultan of Turkey is making rather striling preparations for his July visit to Paris. His suite is announced as consisting of five hundred persons—three hundred women and fifteen enunchs, etc. Where finest been and enunch—will be lodged in the Tuilier case women, with a wooden bay of the county as one of the county and envised and enunched will be lodged in the Tuilier case women, with a wooden bay of the county along which the grand/Turk himself, we have not yet learned from the Moniteur.
